

# How Would Waste Get From Here to There?

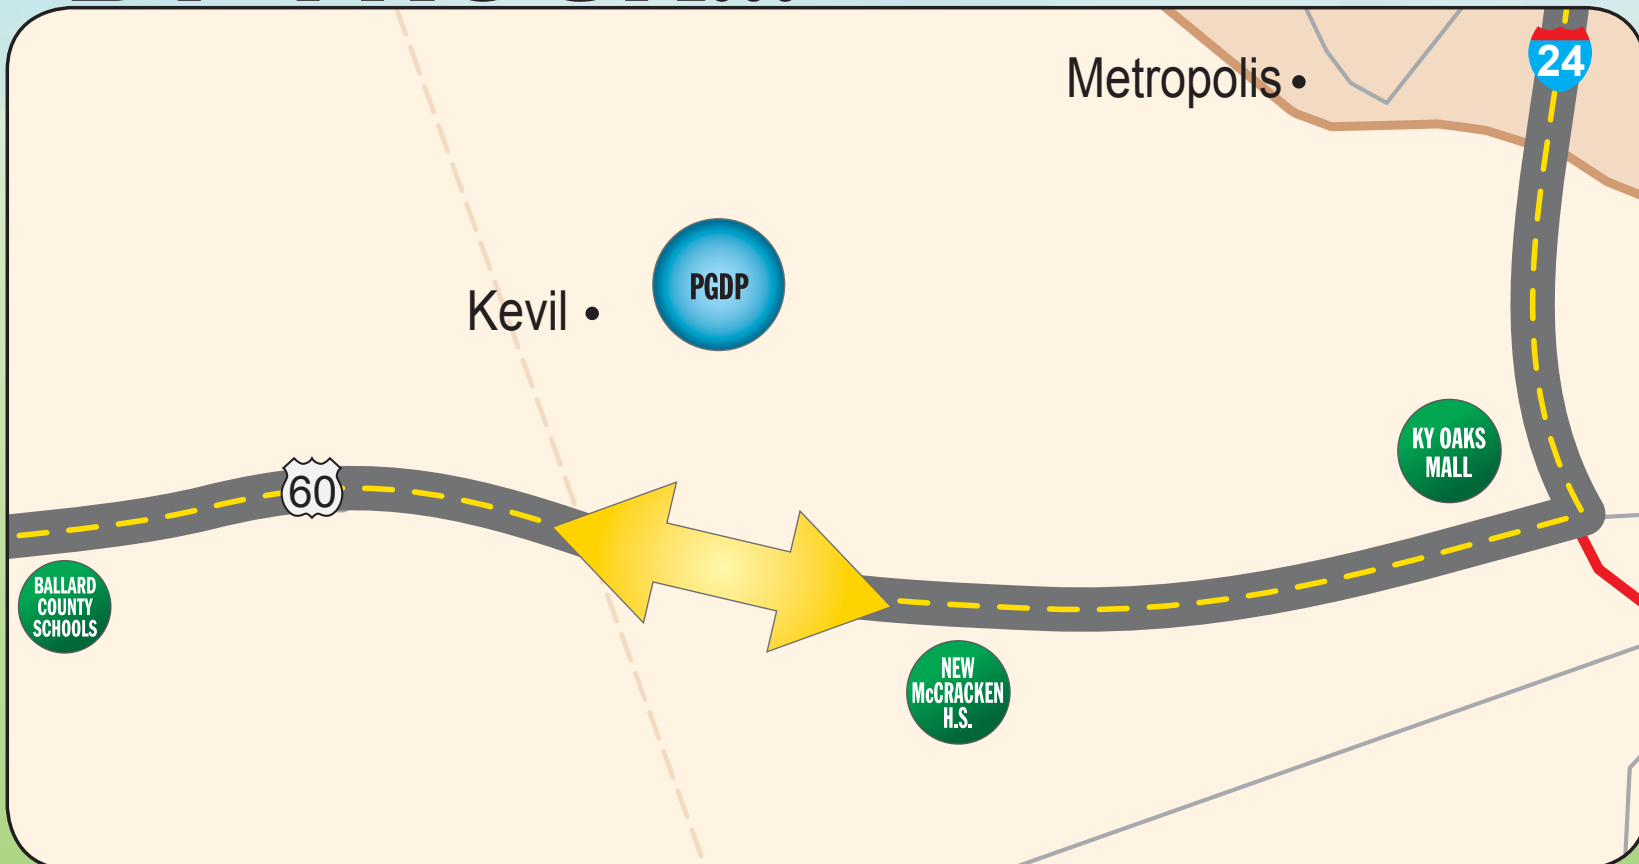

FMI

## BY TRAIN...

From the plant, trains likely would move to the switchyards in Paducah then via various paths to disposal facilities. The exact route would depend on the destination and be determined by the railroad company contracted to move the cars.

## BY TRUCK...

Depending on the destination, trucks likely would move via U.S. 60 east to I-24 and into Illinois or along U.S. 60 west to U.S. 51 into Tennessee.
